HAUS OF AURAH

MADE BY BRAZILIAN HANDS

" WE ARE INSPIRED BY  
THE DETAILS WHO NO  
ONE ELSE SEES"

It is elevating Brazilian decor by bringing unique and completely exclusive pieces to the walls, with a lot of Brazilian essence in their design, shapes, colors, textures, and history. Nature's discards become our main raw material. Our roots have never captured so much attention. Thus, we believe we are writing a new chapter in the history of art and architecture in our country.

# OUR GOAL

History, textures, and ways of identifying the Brazilian  
essence on walls and in the small details of decoration.
