FINE OBJECTS WITH BRAZILIAN SOUL

Aver Metais product brings the history of a family company proud to be essentially Brazilian. All our processes from design to production and distribution are made in our design studio in the South of Brazil, and where we proudly employ and support our local community and suppliers.

Each product is special, produced by order only and custom made for each project through an accurate selection between our options of precious rock crystals and metal finishes, making it the perfect choice for unique interior design projects all over the world.

And now we are pleased to introduce to you our new collection of fine objects developed with the captivating beauty of natural quartz and selenite taking center stage in this wonderful collection, simple in form and rich in texture and character.

DETAILS:

Those items are artisan crafted with meticulous care. Owing to variations in natural material and handcraftsmanship, no two are alike. Natural variations in quartz and selenite crystalline structure and imperfections such as mineral deposits are to be expected and add to the unique beauty of each piece.

Due to its handcrafted nature, natural variations in shape, size, weight and finish are to be expected and celebrated; each one is unique.

For decorative and indoor use only, vases and centerpieces are watertight.

Wipe with a soft, dry cloth; avoid the use of all cleaners and abrasives, as they will damage the finish.

As it is a natural product, mined, with a limited offer in nature, its availability will be subject to market supply and demand conditions, and there may be price variations for the products without prior notice.
